Overview

Theme Laze is one of the most powerful, amazing and flexible themes on Odoo store. Multipurpose Premium Responsive Odoo Themes - Fashion, Furniture, Sports, Jewellery, Corporate. Creative theme, Ecommerce theme, Entertainment theme, Personal theme, Services theme, Technology theme, Business theme, Multipurpose odoo theme, Multi-purpose theme, Theme Laze, Odoo new themes, Laze Theme, Bootstrap4 odoo themes, eCommerce Businesses, Odoo RTL Theme, Right to left theme. Let's start with core theme feature of theme Laze.

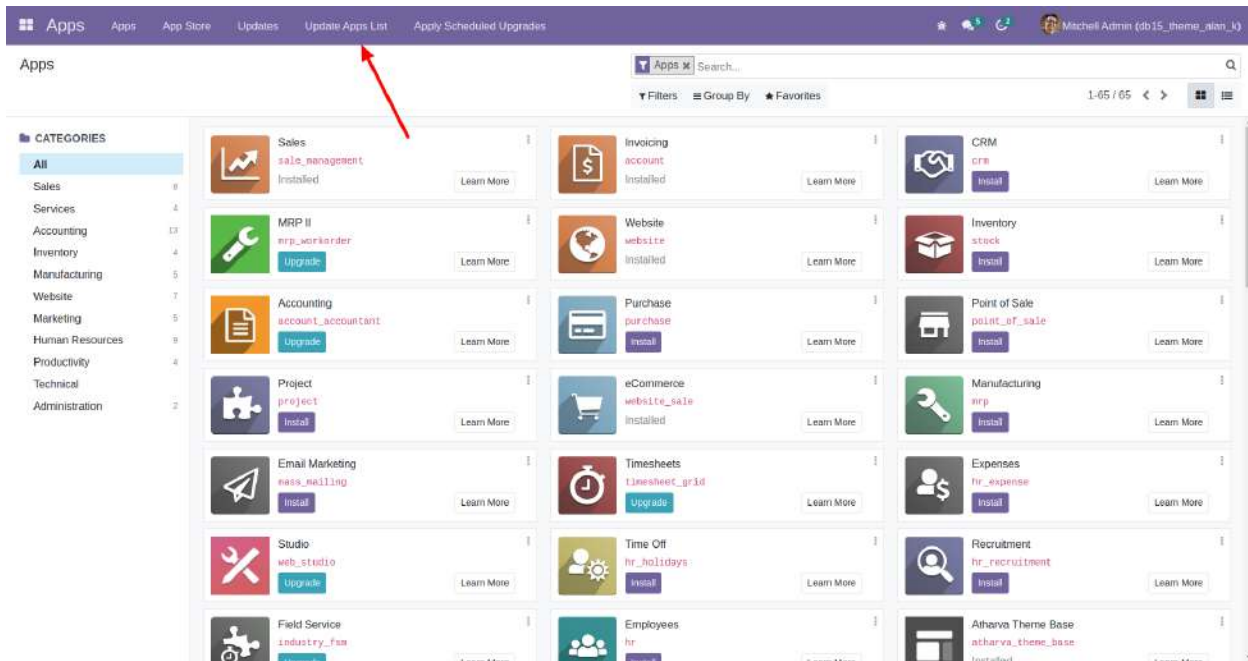

Installation

Download Theme Laze Modules and unzip both modules to your addons or custom addons folder and restart Odoo Service

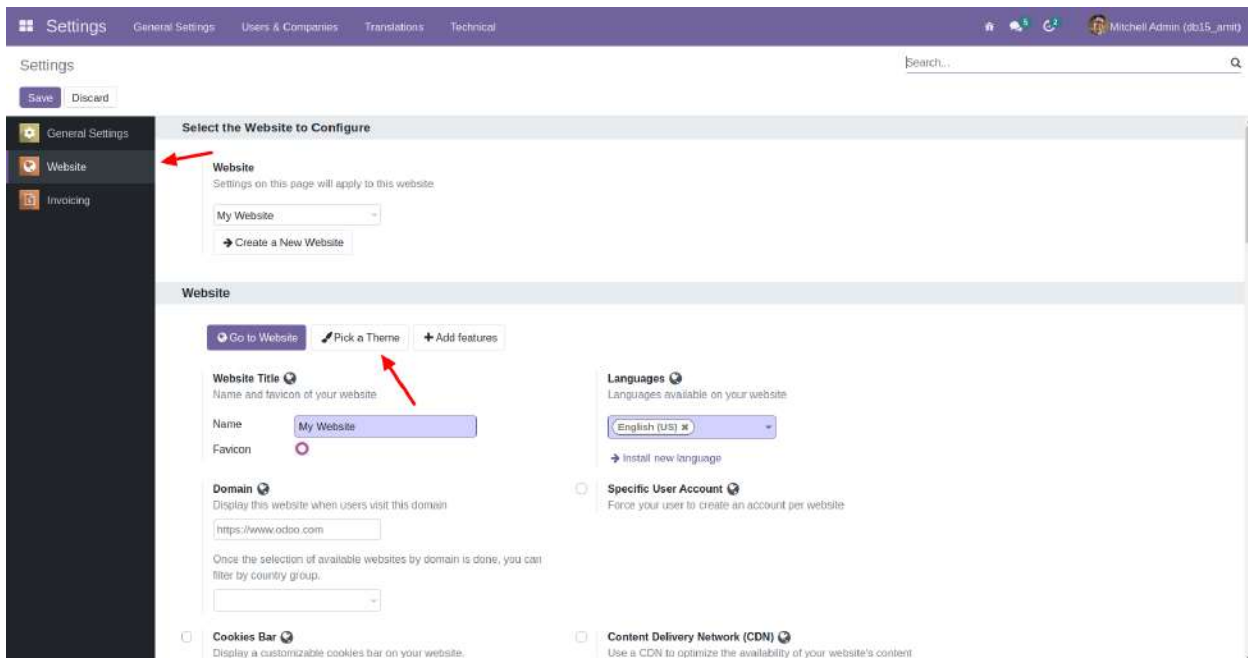

Now Activate Developer Mode:

Now go to Apps section and click on Update Apps List

Now go to the search bar and search 'Atharva Theme Base' and click on install. When module is install It will redirect you to website Configurator page and if not redirect then go to setting and click on 'Pick a Theme' after that click on 'Use This Theme' on Theme Laze

Laze Headers & Footers

In odoo we have different headers and footers options which we can use to set header and footer in our theme and Theme Laze provides you additional more amazing headers and footers options which you can use to create a more attractive website.

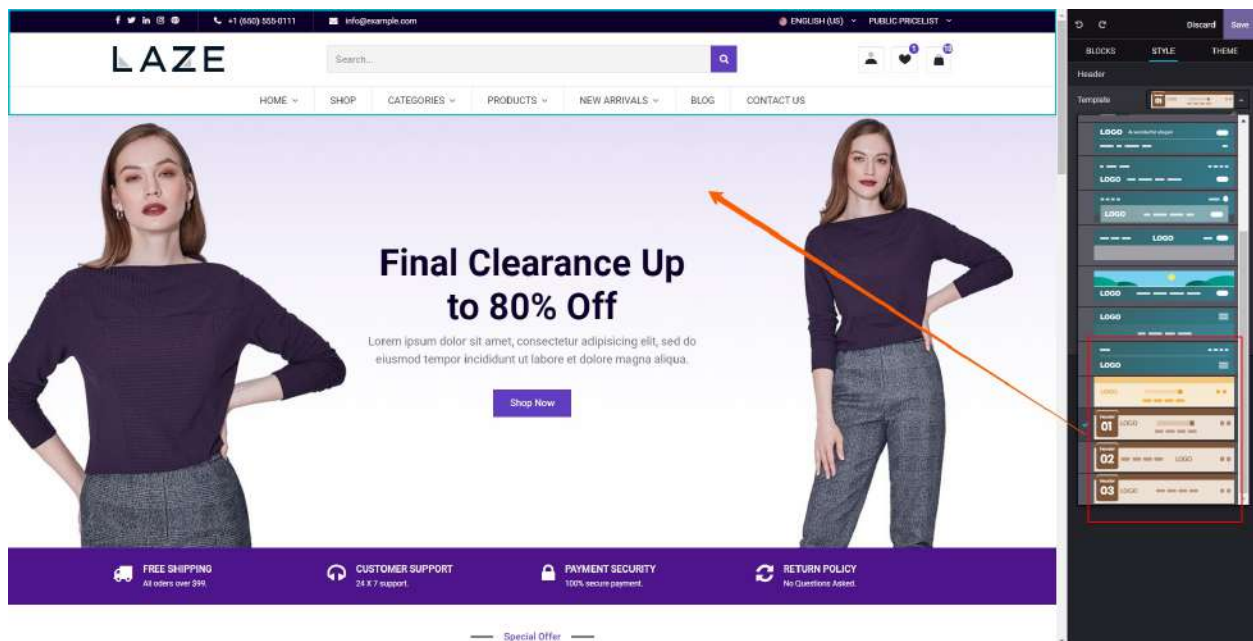

Theme Laze provides you 3 amazing headers and Footers.

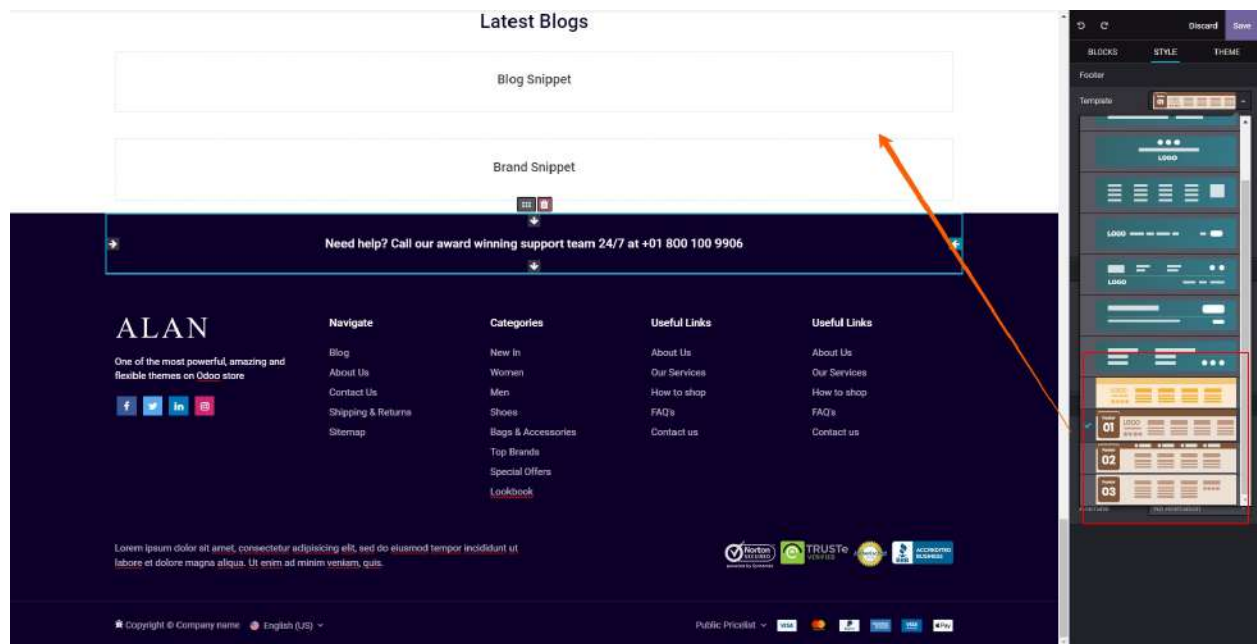

Let's see steps to changes header and footer

Step 1 : Click on the edit button given at top right side.

Step 2 : Click on header or footer (based on which you want to change)

Step 3 : Now click on the template option where you can see our custom header or footer options.

Progressive Web Application

Theme Laze provides you this functionality by which your website works and functions like native mobile apps. It's super cool functionality.

Let's see steps to configure PWA for your website.

Step 1 : Go to the website and scroll down to the PWA section.

Step 2 : Click on PWA to activate and make sure if you are using a multi website and first you need to select a website then configure PWA website wise.

Step 3 : Fill the details and click on the Save button.

Step 4 : Now go to the website and check the address bar where you can see the PWA install icon then click on Install and see the magic.

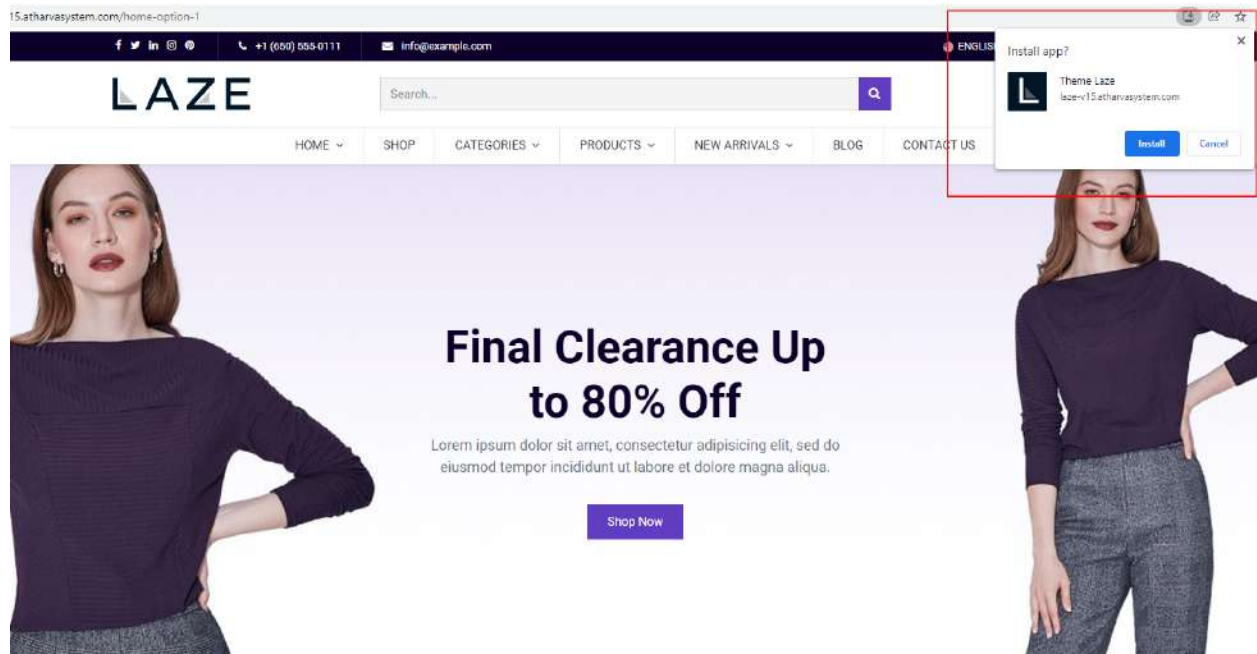

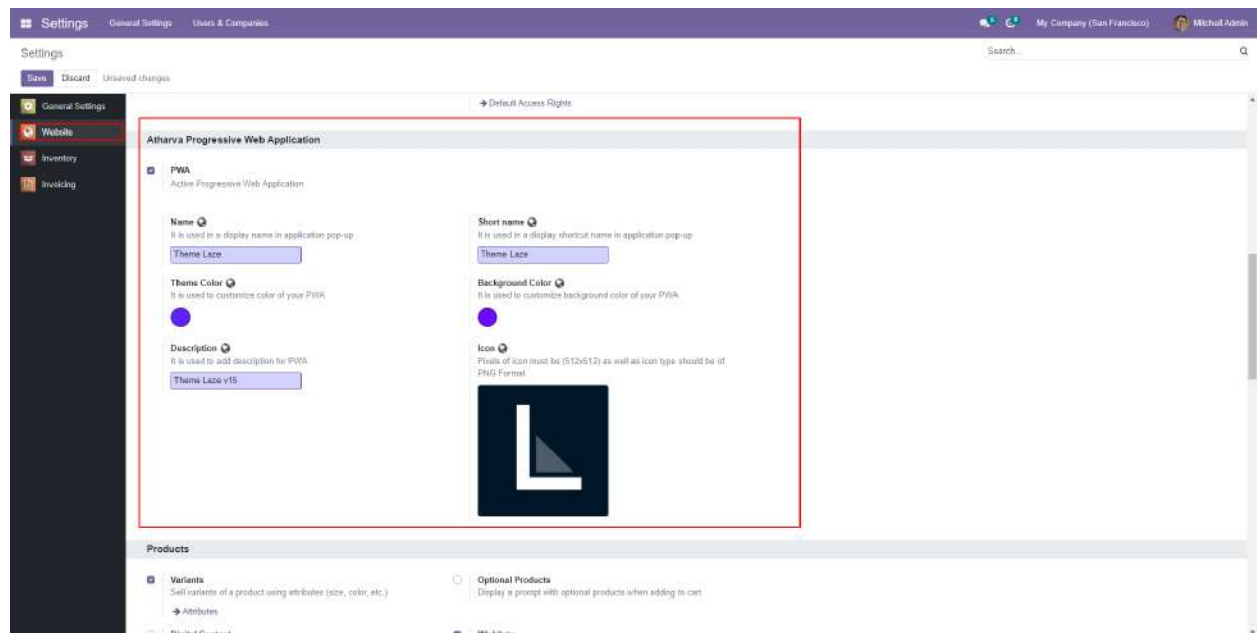

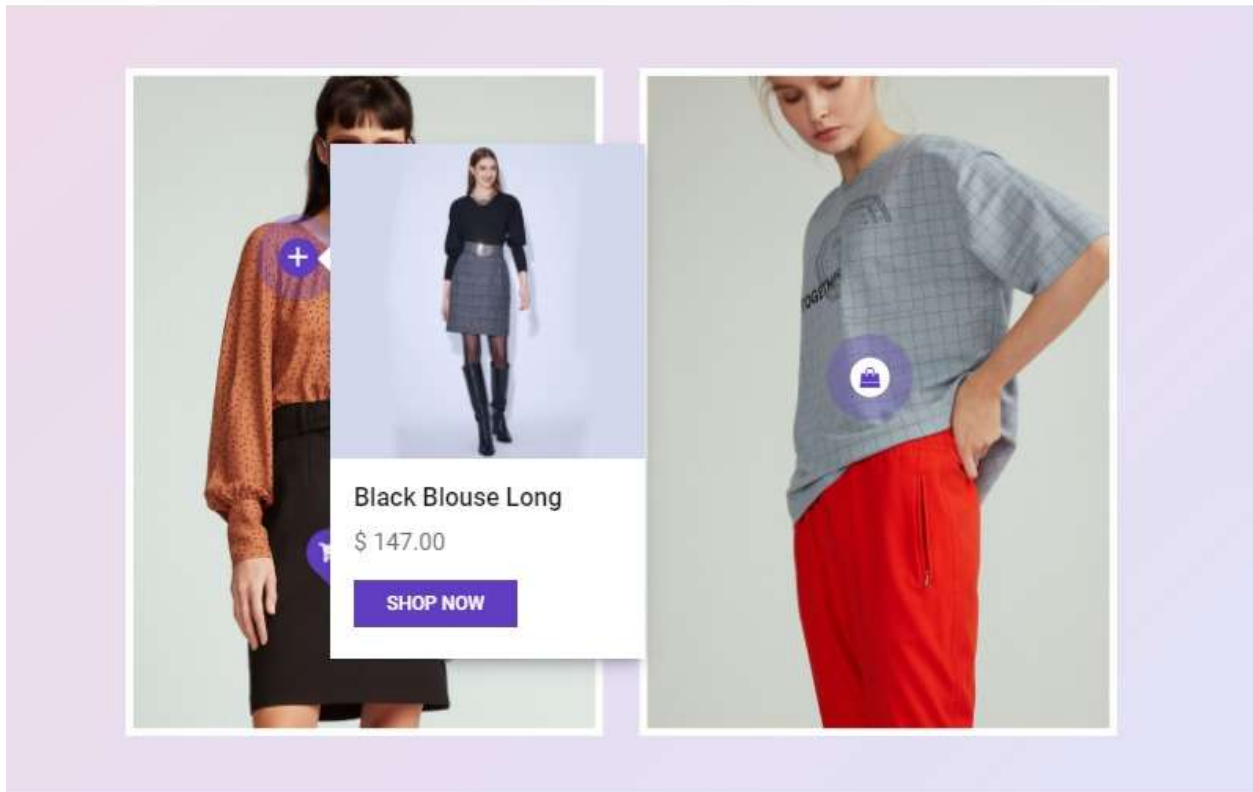

Image Hotspot

Theme Laze provides you Image hotspot functionality by which you can add hotspot on snippet images like given below.

Let's see steps to configure Image hotspot on images.

Step 1 : Drag and drop any image snippet and change image whatever you like.

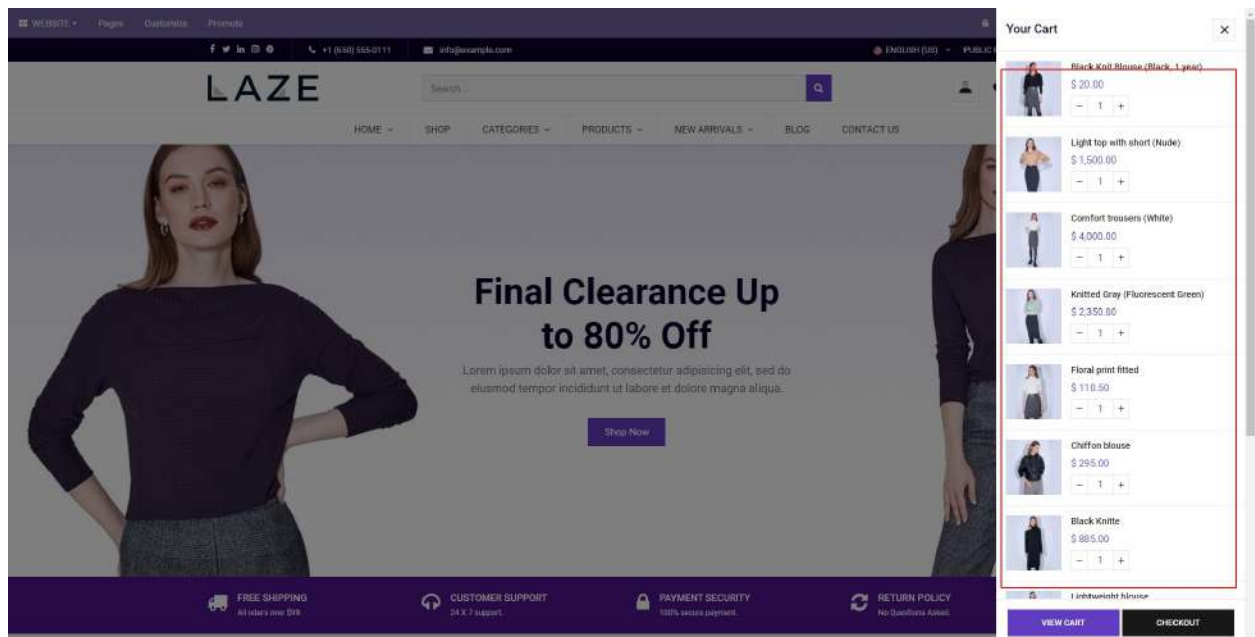

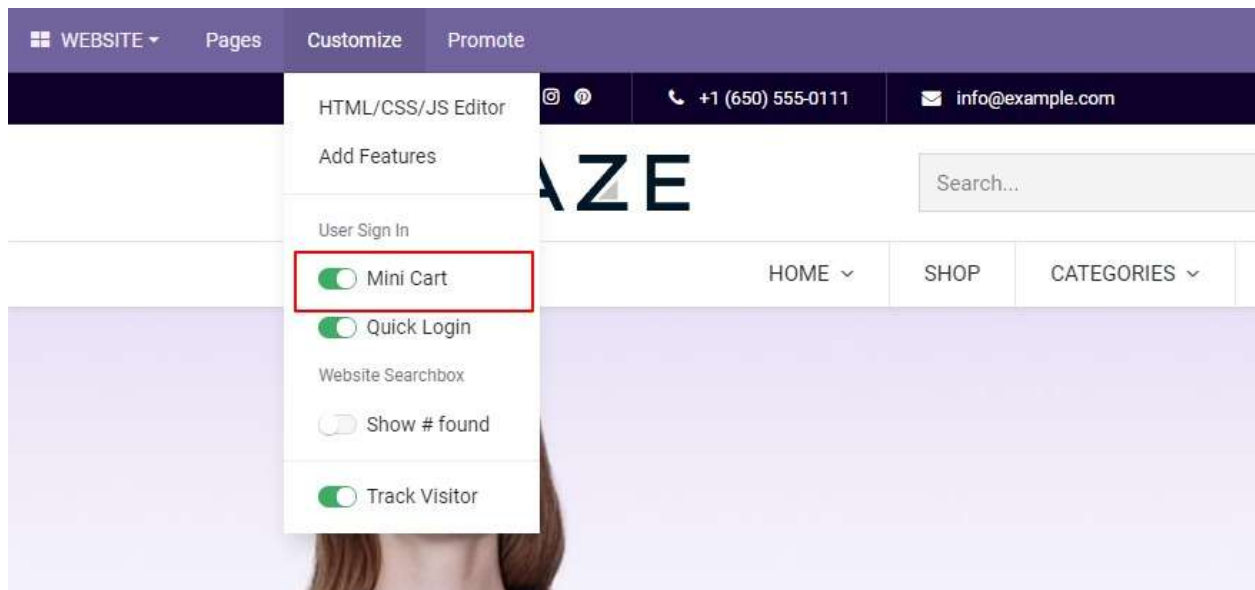

Step 2 : Now click on image then check on edit section you will find 'Add hotspot' option.

Step 3 : When you click on that button, the Hotspot icon is automatically added to the image and you can add a number of hotspot icons on the image with different styles.

Step 4 : Click on hotspot icon and check in edit section you will find on block section where you can configure hotspot actions.

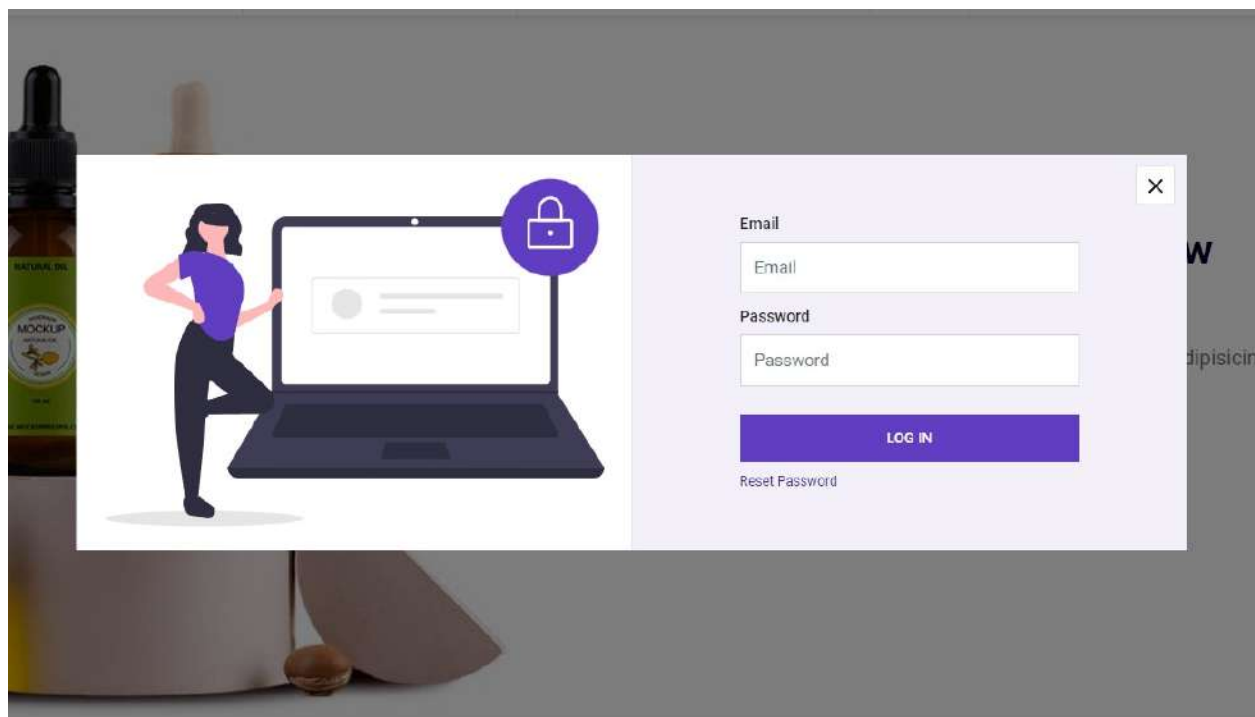

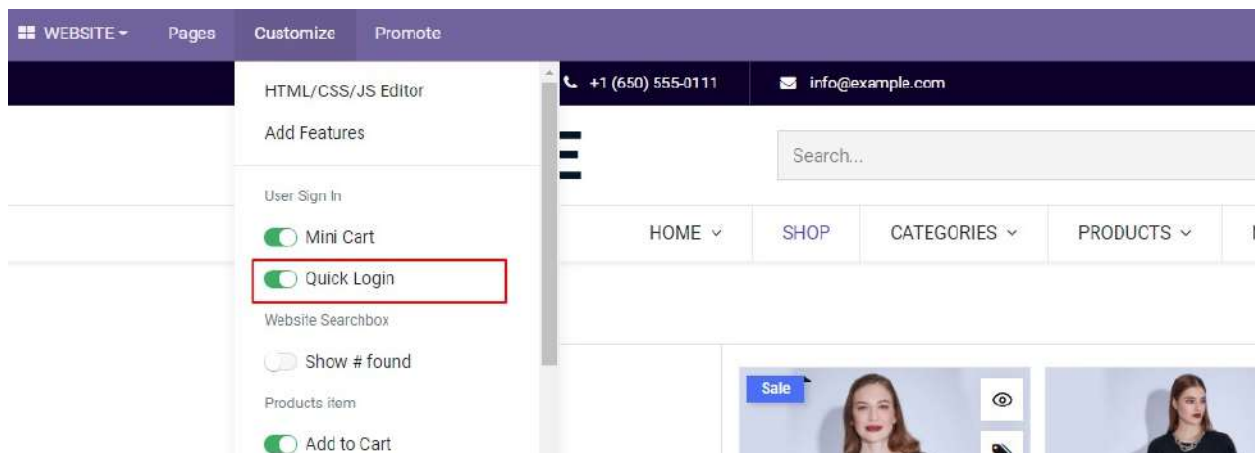

Mini Cart

Theme Laze provides you mini cart functionality by which you can quickly check cart details without redirecting to the cart page. It's by default active and we provide a switch by which you can turn off and on as per requirement.

Quick Login

Theme Laze provides you Quick login functionality by which users can quickly login or signup without redirecting to the login or signup page. It's by default inactive and we provide a switch by which you can turn off and on as per requirement.

Megamenu

Theme Laze comes with 4 types of additional megamenu in which you can directly set product and category in list and grid style.

The benefit of this type of megamenu is you don't need to set everything manually, it will be done automatically by a few clicks.

Let's see steps to configure Laze megamenu

Step 1 : Go to the page option given at top and click on edit menu.

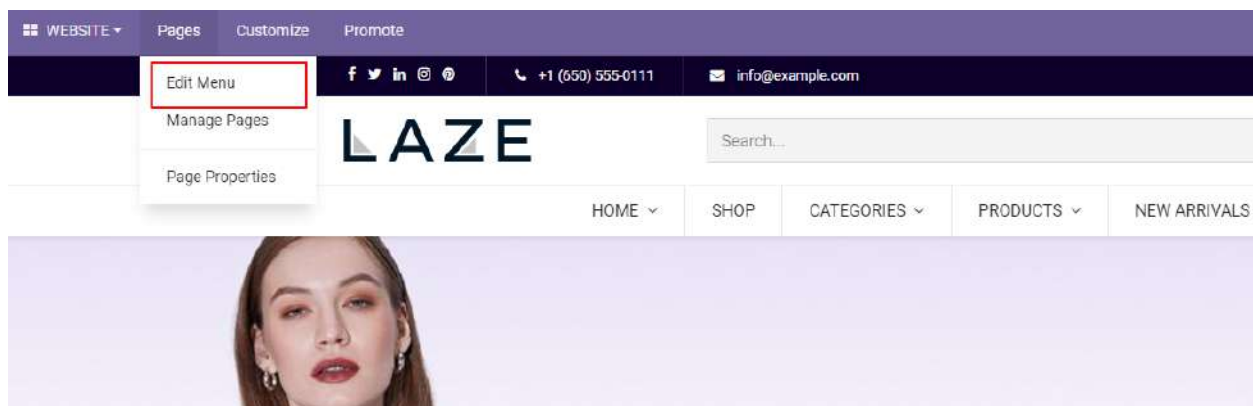

Step 2 : Click on add mega menu item.

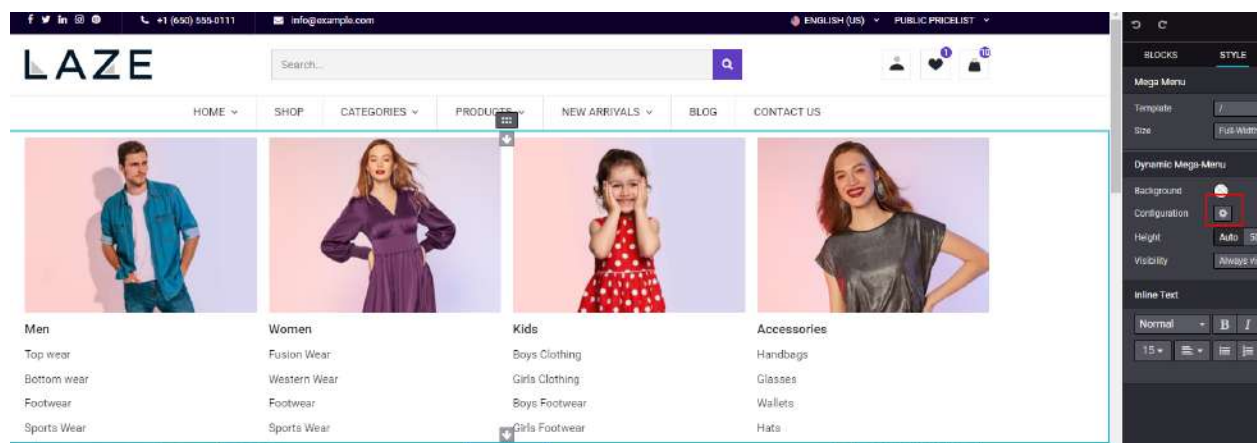

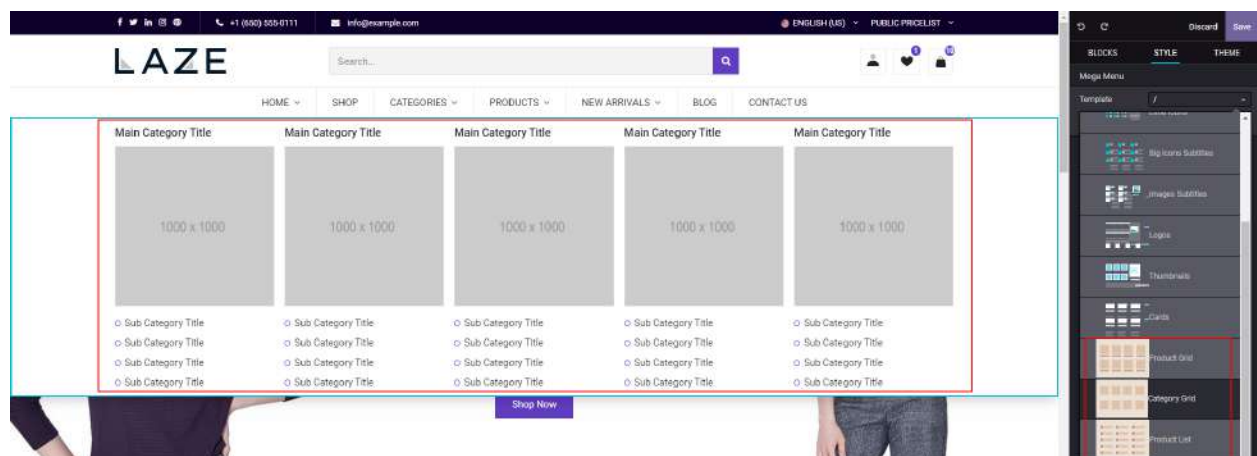

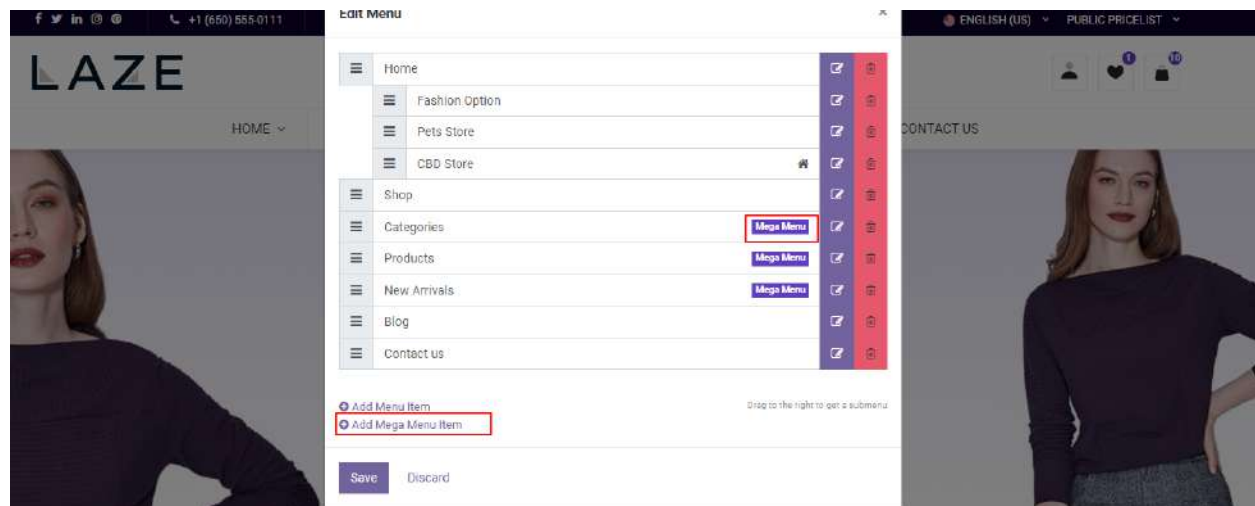

Step 3 : Now click on edit then click on that mega menu that you just created.

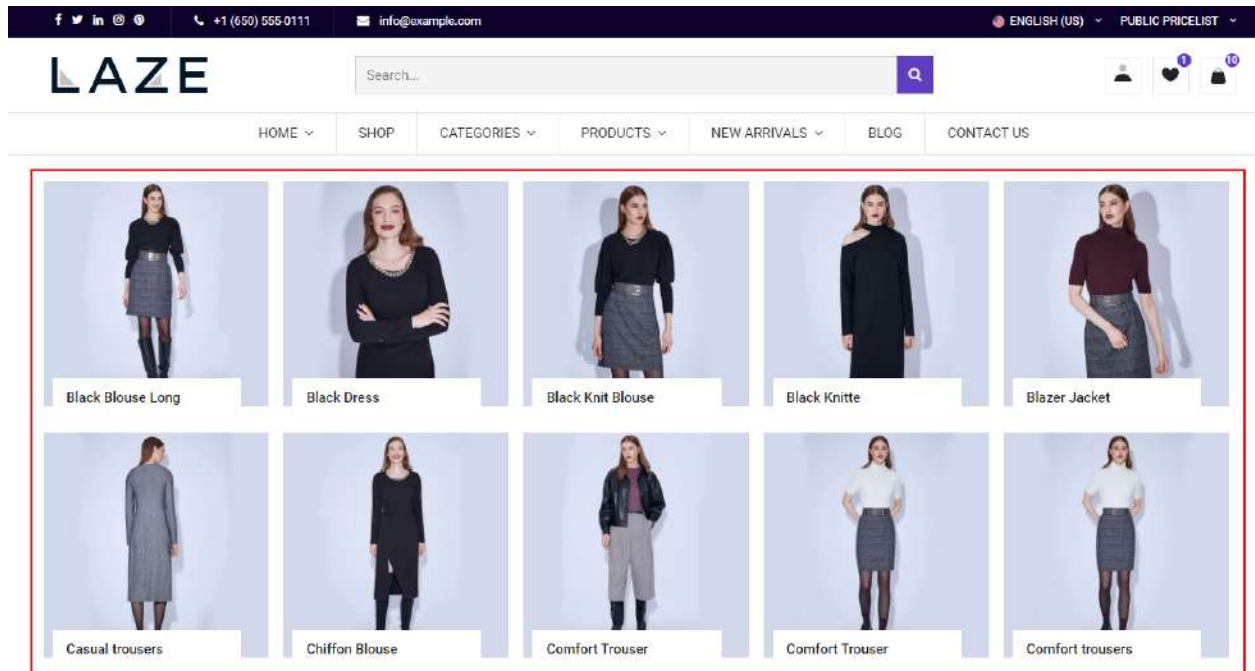

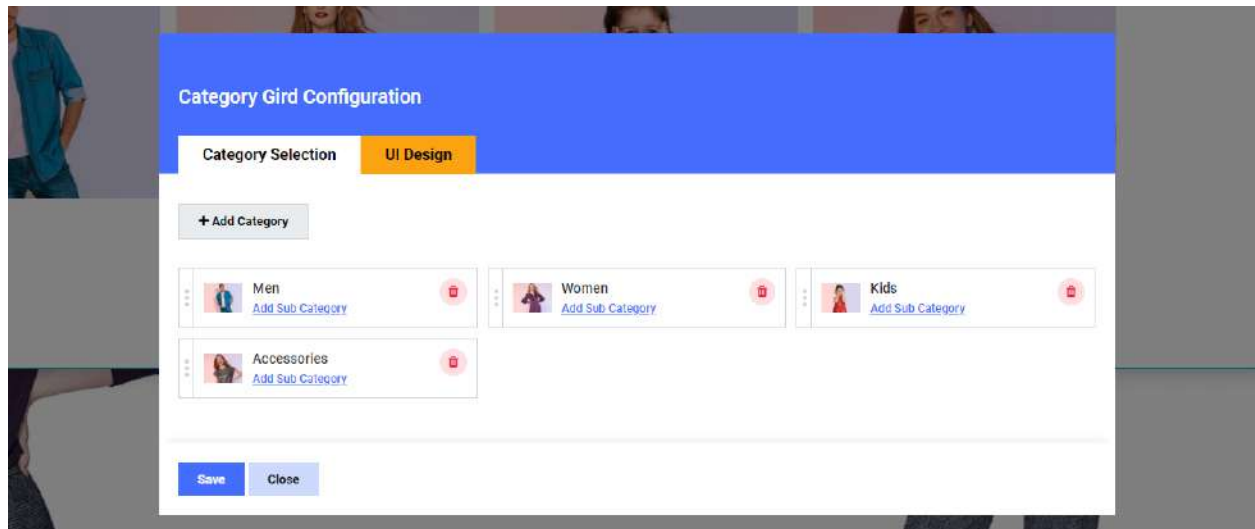

Step 4 : When you click on that menu then below this sub menu template open you need to select that menu by clicking on this.

Step 5 : When you click on that template then in edit section new section is come named megamenu where we add our mega menu template you need to select any one of this template

Step 6 : When you select our mega menu template then you will find one configuration option where you need to configure data like design, columns. After completing the configuration, The Mega menu is automatically created.

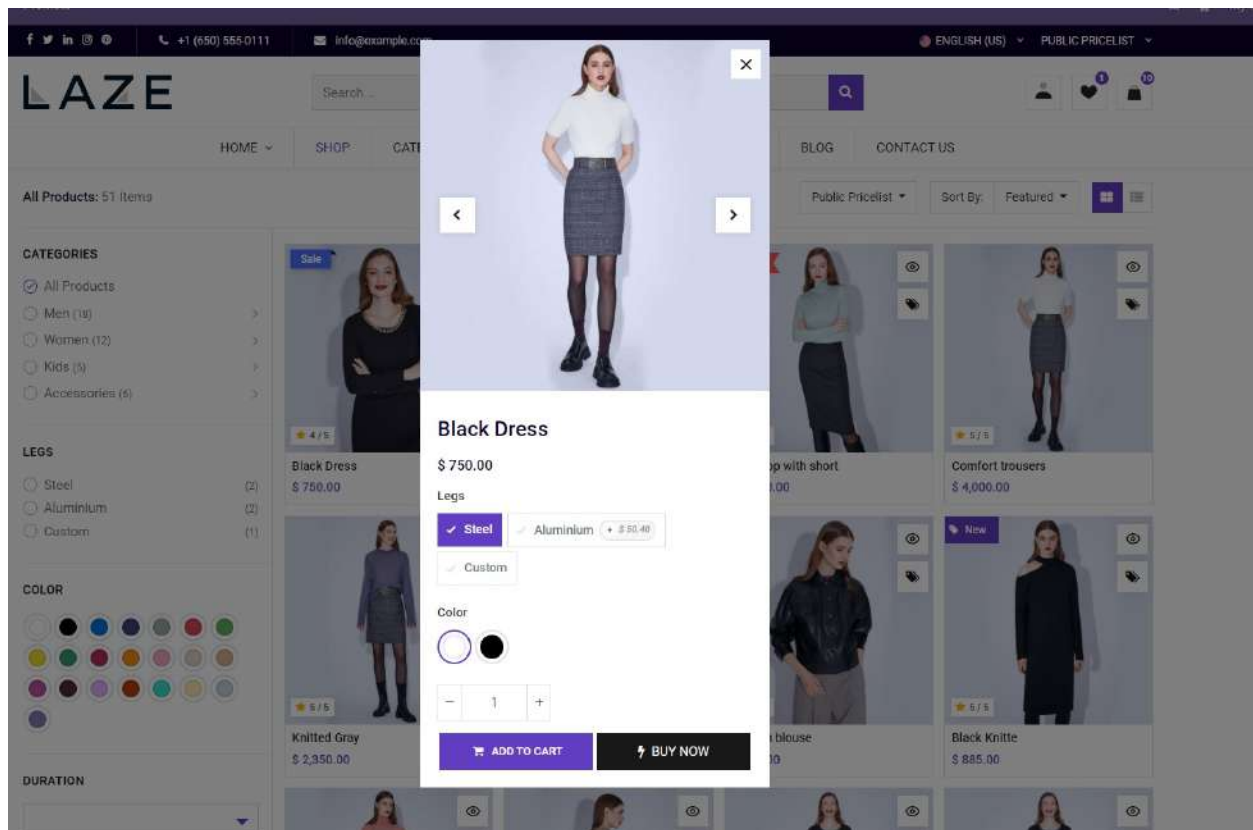

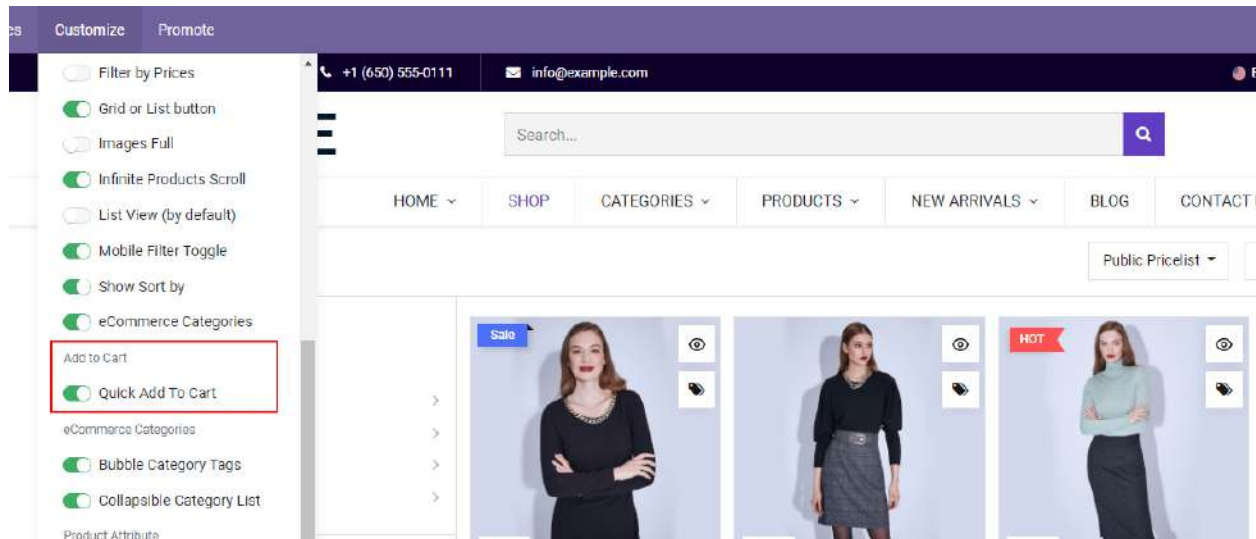

Quick Add To Cart

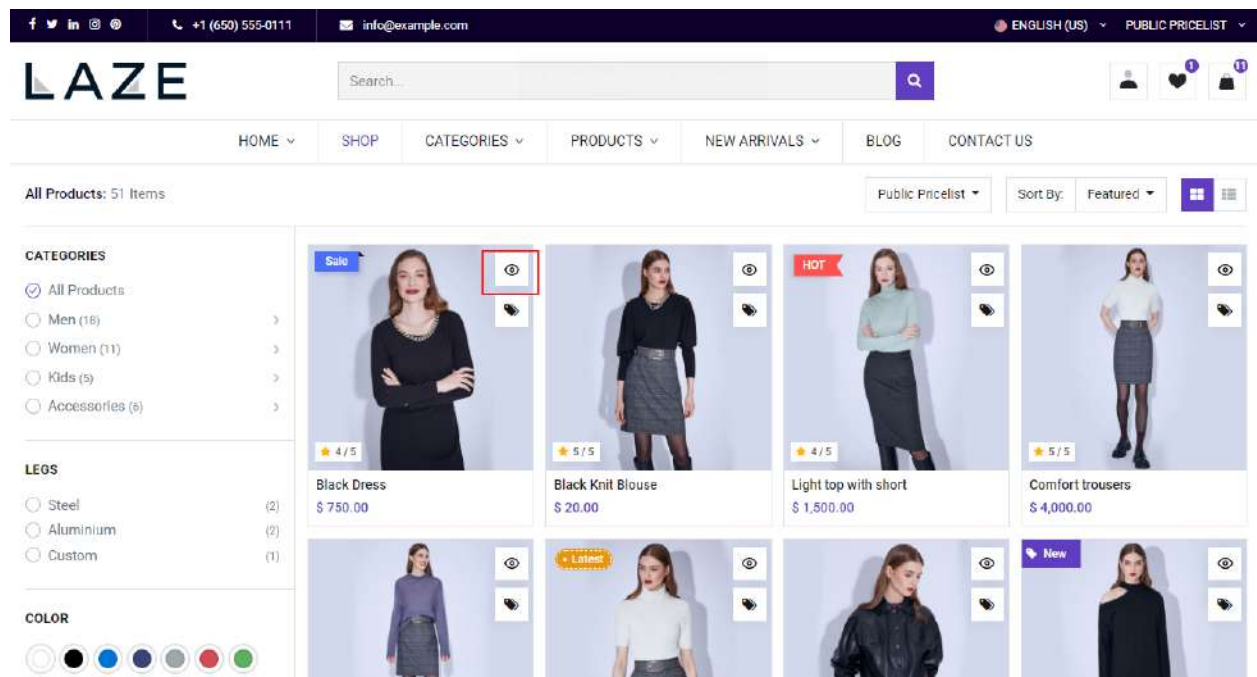

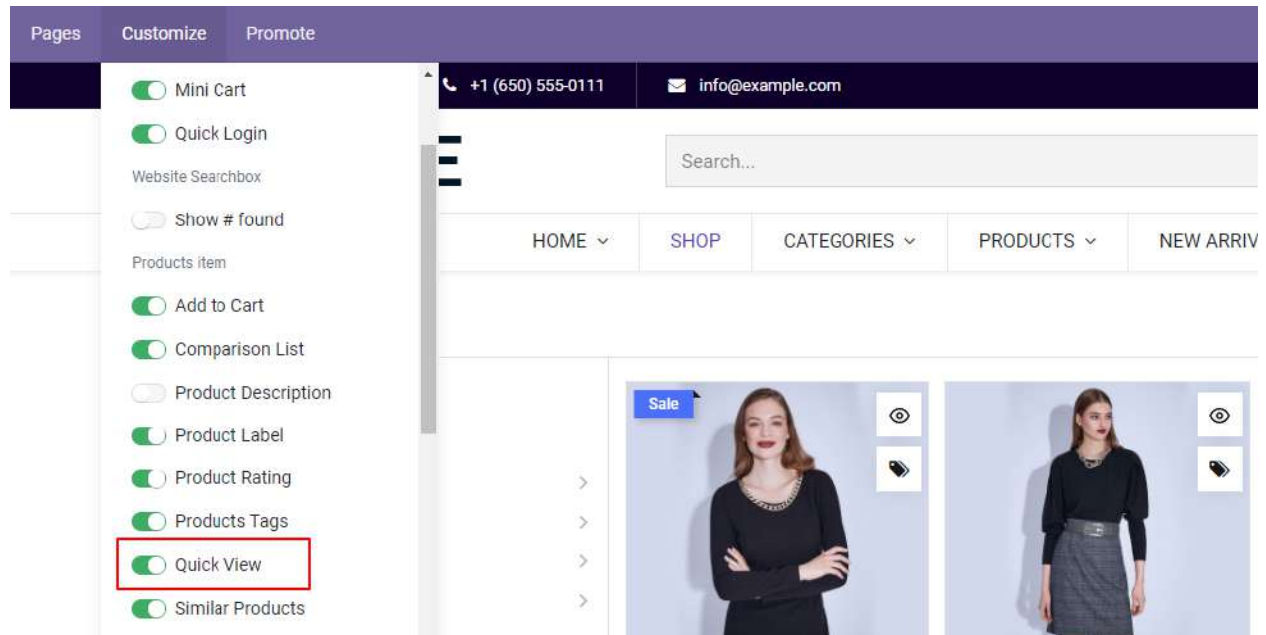

Theme Laze provides you Quick Add To Cart functionality by which users can quickly add the product in cart without redirecting to the product detail page. It's by default inactive and we provide a switch by which you can turn off and on as per requirement

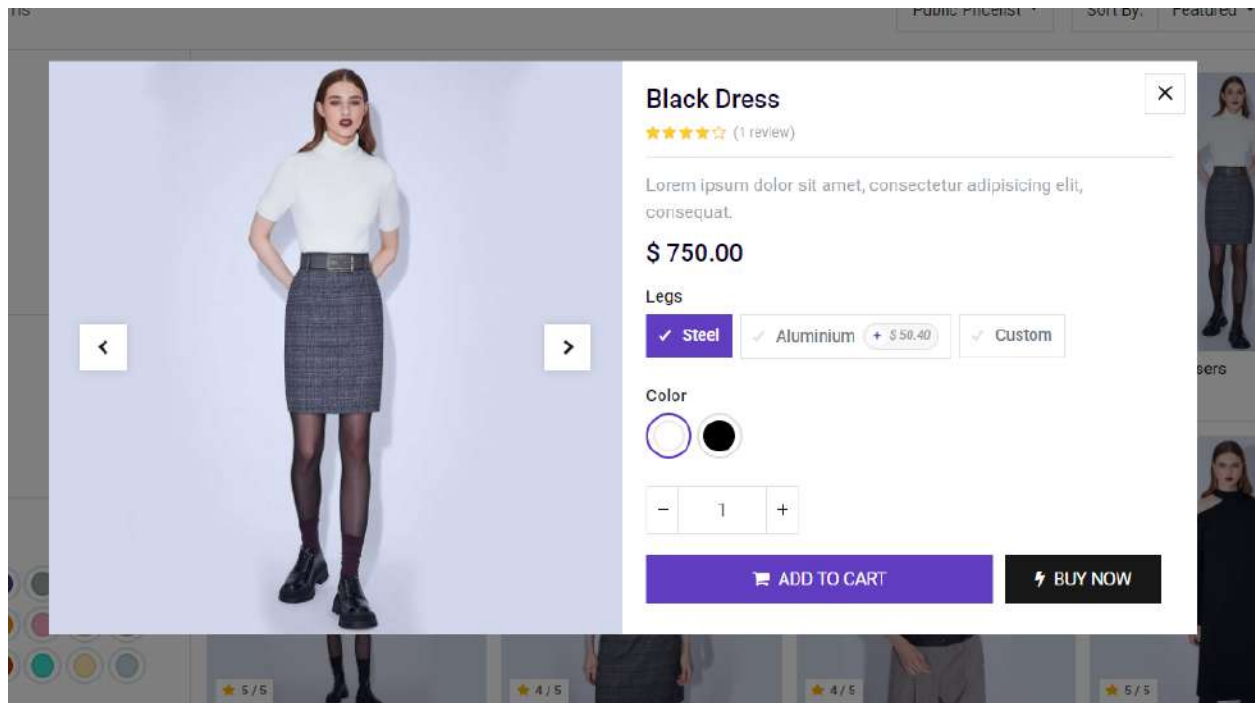

Quick View

Theme Laze provides you Quick View functionality by which users can quickly view products without redirecting to the product detail page. It's by default active and we provide a switch by which you can turn off and on as per requirement.

Product Tags

Theme Laze provides you tags functionality by which you can assign multiple tags to same or different products. You can see that tag in the shop page as well as the product detail page by switching on or off products tags in customize options.

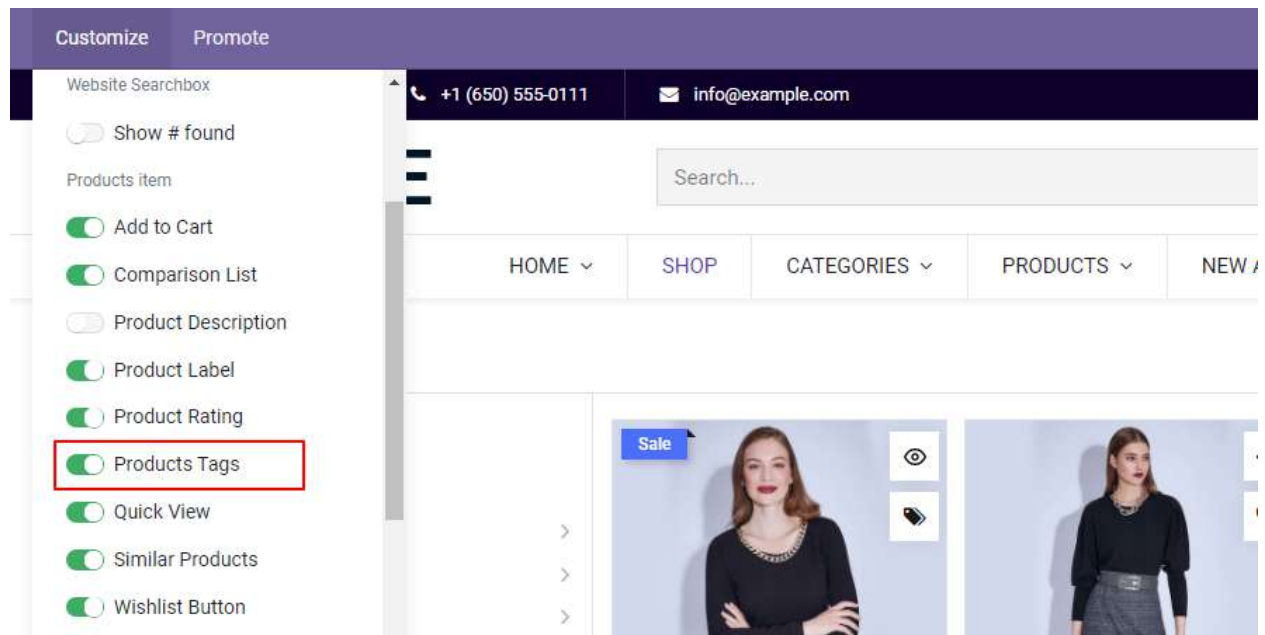

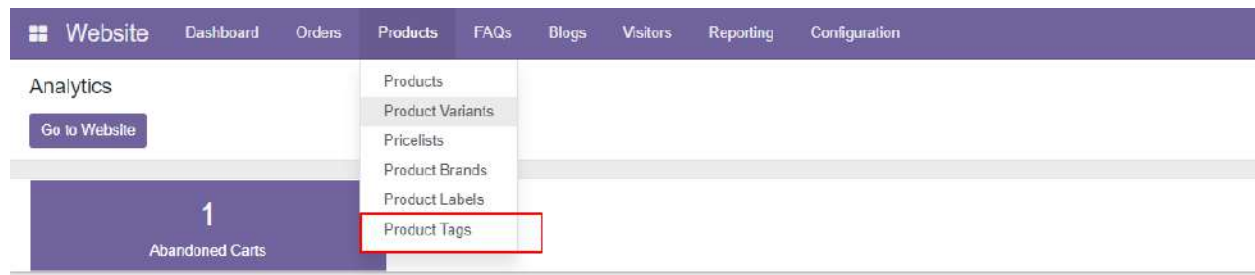

Let's see steps to configure product tags

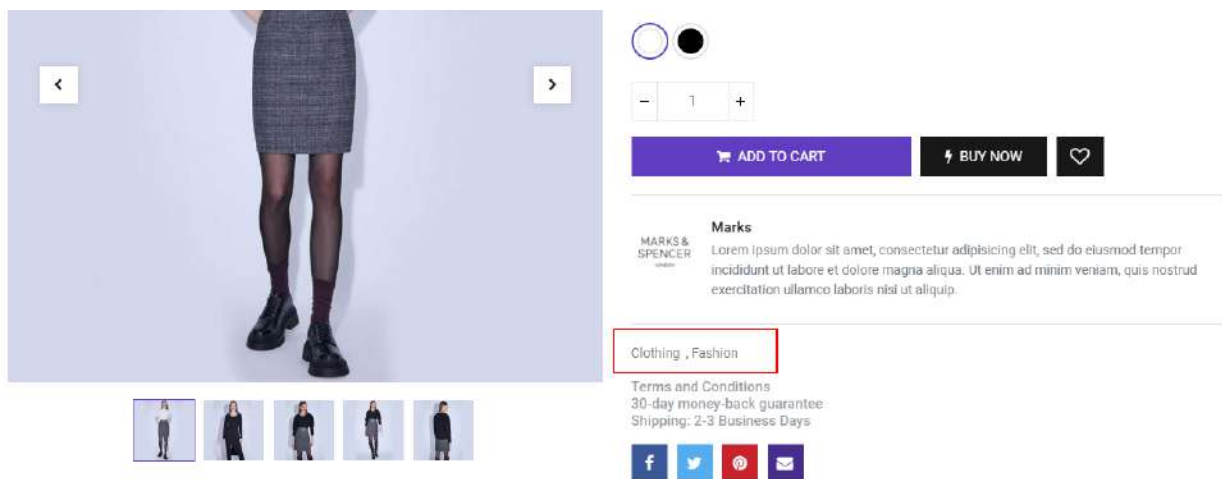

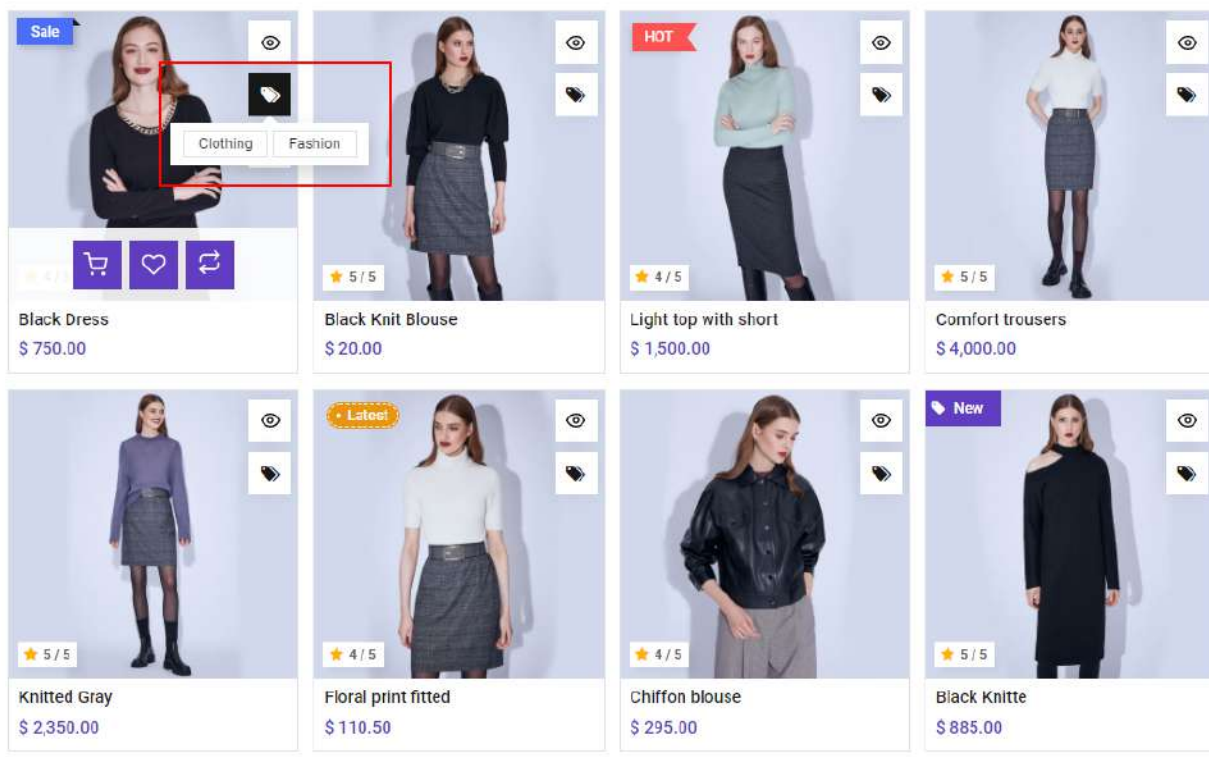

Step 1 : Go to admin in the website section.

Step 2 : Click on the Product tags from Product Menu given at the top bar.

Step 3 : Now create a tag and assign a product to that tag.

Step 4 : Go to the shop page and switch on product tags from customize option and you can do the same in product detail page

Product Brand & Brand Page

Theme Laze comes with Brand functionality by which you can create brands and you can assign that brand to any product. Product brand information is only visible on product detail page and brand comes in filter to get accurate brand product. And you can access all brands at the url '/shop/brands'.

Let's see steps to configure brands

Step 1 : Go to admin in the website section.

Step 2 : Click on the Product Brand from the Product Menu given at the top bar.

Step 3 : Now create a brand and assign a product to that brand from product form view.

The image shows a two-part screenshot of the Admin Dashboard. The top part shows the navigation menu with 'Products' selected, and a dropdown menu where 'Product Brands' is highlighted with a red box. The bottom part shows the 'Product Brand' configuration page for a brand named 'Marks'. The page includes a 'Brand Name' field with the value 'Marks', a 'MARKS & SPENCER LONDON' logo, and checkboxes for 'Active' and 'Visible in Website'. Below this are tabs for 'Website Description', 'Products', and 'Website'. The 'Description' section contains a text area with placeholder text. The 'Website Brand Description' and 'Website Description' sections are also visible.

Accessory & Alternative Product Sliders

Theme Laze provides you custom alternative and accessory product sliders. You can configure accessory and alternative products from the admin section and you can on or off any of these sliders from the customize option on product detail page.

Let's see steps to configure accessory and alternative slider

Step 1 : Go to any product form view in admin.

Step 2 : In product form view click on sale.

Step 3 : Now add the product in accessory and alternative product fields

Step 4 : Go to the product detail page and check your tabs.

The screenshot displays the Admin Panel interface for configuring a product. The top navigation bar includes links for Website, Dashboard, Orders, Products, FAQs, Blogs, Visitors, Reporting, and Configuration. The user is logged in as Mitchell Admin (eb15_amk).

The main section is titled "Products / Customizable Desk". It features a "Save" button and a "Discard" button. The product name is "Customizable Desk" with a dropdown menu set to "Alan". There are checkboxes for "Can be Sold" and "Can be Purchased".

The "Up Sell & Cross-Sell" section is highlighted with a red box. It contains two sub-sections:

- Accessory Products:** A list of products including (DESK0004) Customizable Desk, (DESK0005) Customizable Desk, (DESK0006) Customizable Desk, (E-COM06) Corner Desk Right Side, (E-COM07) Large Cabinet, (E-COM08) Storage Box, (E-COM09) Large Desk, and (E-COM11) Cabinet with Doors. A "Suggested accessories" link is also present.
- Alternative Products:** A list of products including (FURN_6666) Acoustic Bloc Scre, (E-COM11) Cabinet with Doors, Conference Chair, (FURN_1118) Corner Desk Left Side, (E-COM06) Corner Desk Right Side, Deposit, (FURN_7800) Desk Combination, (FURN_7888) Desk Stand with S, (FURN_8856) Drawer, (FURN_8900) Drawer Black, (FURN_8901) Filpower, and (FURN_8220) Four Person Desk. A "Displayed in bottom o" link is also present.

The right sidebar contains the "vCommerce Shop" section with fields for "Website", "Website Sequence" (set to 9.950), "Categories" (set to Desks), and "Ribbon".
